

# Puppy Classes

Start your Puppy on the right PAW!

Your Puppy will make lasting judgements of the world within the critical period of 6 - 20 weeks. This time is crucial in establishing your life together as a family. Your Puppy will grow very fast, so getting the fundamentals of training in early will allow for a well behaved adult dog in the future.

We will assist you by laying the foundations for a loving, lasting relationship that has no boundaries on what you can do together.

The paw has no limits!
